3 June 1982

MEMORANDUM FOR: DDI Office Directors

FROM: Helene L. Boatner
Chief, DDI Product Evaluation Staff

SUBJECT: Product Evaluation Studies

1. Attached is a tentative schedule of the Product Evaluation studies we will be doing in the next year and preliminary concept papers for four of the projects. We plan to wait until later in the year to determine the precise dimensions of the Central America study, but it will focus on treatment of evidence. The topics have been selected by the DDI, based largely on suggestions from all of you.

2. We intend to discuss each study with the office directors concerned before we begin, to refine the questions, talk about methodology, discuss potential outside participants in our efforts, and arrange for access to relevant documents. I wanted you to know of our plans, however, so none of this would come as a surprise.
